October 24, 1979.

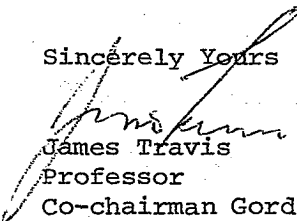

Dear David:

The Gordon Research Conferences have approved a meeting entitled "Proteolytic Enzymes and Their Inhibitors" to be held at Plymouth State College, Plymouth, New Hampshire, from June 23-27, 1980. The co-chairmen for this conference will be Jim Powers and myself.

This letter is written to formally request a grant of \$2500.00 from The Council for Tobacco Research-U.S.A. to aid in the participation at this meeting of individuals who would normally not be able to attend because of insufficient funds. It would not be utilized by any individuals with commercial affiliation.

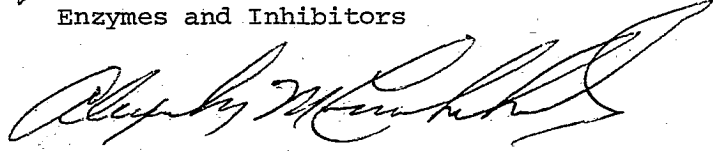

I have attached an outline of the program as we see it, including a historical perspective, potential budget, and a list of tentative speakers. We feel that this is a most opportune time to bring together speakers from varied disciplines, all of whom have a vested interest in proteolytic enzymes and inhibitors. I hope that you agree and that funds can be found to help support this conference.

Sincerely Yours

James Travis
Professor
